

### Student Toggling

- 1) By clicking on the students name in the group view you will get a toggle screen that has all the content areas for that student.
- 2) You can toggle the standards, assessment, and QPI and add comment the same as above.
- 3) Saving is the same as above, either with the save changes button at the bottom of the screen or select save all changes from the "Choose One" pull down by the students name.

### Other Notes

These last few screens have several features that you can get more information about in other DARTBytes:

**Last Change:** Randy Fleharty (08/09/06-18:50) - [History](#) **“History” Link:** This link takes you to a page that will display the history of changes to this student’s toggling. Including the date, the last teacher to toggle, and the areas modified. See DARTByte: Who Toggled Last?

 **Equivalent Representations :: Estimation Strategies :: Find Missing Angle/Side :: Geometric Formulas :: Measure Precision Error :: Defends Conclusions :: Net & Gross Pay / Tax Forms :: Graphing Relationships :: Analytical Assessment :: Problem Solving 1 :: Problem Solving 2**  
**Weighted list:** This area will change as the student needs change. The bigger the phrase the more students need this standard taught. Each standard name is a link and will take you to that standard in the BSSD wiki. There you will find the standard unpacked and in many cases ideas and resources to teach that standard. See DARTByte: Weighted List

**Individual Reports:** When you are in the individual student toggling view you have the option of going directly to reports and the demographics area for that student. See DARTByte: Printing Current Reports
